

AUTHENTIC TEACHING and LEARNING for the 21st CENTURY

Graduate Course Offering in Franklin County

How will you teach our digital natives?

What opportunities will you provide to give them 21st Century Skills?

This course will use components of differentiation and project-based learning to create an educational experience that is authentic for teachers and students. Participants will examine research about 21st century skills and participate in online and face to face discussions about 21st century teaching and learning. They will choose one of 3 hands on institutes to explore emerging technology that supports this learning and develop a project that models the integration of technology into the curriculum to meet the needs of the 21st century learner.

Participants taking this course will receive their choice of the following to use in their school:

Laptop Projector Document Camera Multimedia Kit (Netbook & Flip Video Cam)

CHOOSE 1 of 3 HANDS-ON INSTITUTES

21ST CENTURY TEACHING

St. Albans Town Ed. Ctr
w/ Diane Lemieux

June 22-26

How will your teaching need to change to include 21st Century skills in your curriculum? What are the tools you'll need to learn, and how can you manage your classroom to support 21st Century Learning? How can you engage your students?

Are you trying to understand the new language of wikis, blogs, Ning and Jing, Digg, Twitter, social websites and tools, Skype and more? Learn about these tools and websites that will allow you and your students to begin your journey into 21st Century methods of teaching and learning.

STUDENT 2.0 - 21ST CENTURY MULTIMEDIA

Missisquoi Valley Union H.S.
w/ Stefanie Blouin &
George Raynak

July 6-10

Are you interested in finding innovative ways to engage your students in learning? In this strand, teachers will explore and experience many multimedia tools, such as Voicethread, Animoto, Photostory, Imovie, Moviemaker, Gimp, and Inspiration. Using these tools and knowledge of the 21st Century teaching and learning strategies, teachers will create a multimedia project that integrates technology into their curriculum

TEACHING THE GOOGLE GENERATION

St. Albans City School
w/ Lucie deLaBruere
Google Certified Educator

August 10-14

Learn how to use the extensive suite of free Google Tools in your Classroom to support 21st century learning. Gain access hundreds of resources and lesson plans from Google Teachers Academy. Tools such as Google Maps, Google Earth, Google Docs, Google Video, Google Sites, Custom Search Engine, Google Reader, and more are changing the way today's students learn. Use them to change the way you teach.
